### **Thinking about a change?**

ED Modular is a new business unit within the company, and is in the process of opening a modular building factory. We are utilizing the latest technology, vertical integration techniques and Lean manufacturing to revolutionize the industry. Instead of constructing buildings, we believe the future is in manufacturing them away from the jobsite. So, if you're creative, passionate and enjoy working with like-minded people, why wouldn't you want to help us revolutionize the construction industry?

In case you're curious, here's what the industry [thinks of us](#) and some cool [things we have done](#).

### **You as a Plumber will:**

- Assemble, install, and repair pipes, appliances, and fixtures
- Read and design blueprints
- Complete calculations and measurements to ensure pipes function correctly
- Complete all state and local licensing requirements
- Supervise and complete installation of plumbing equipment
- Troubleshoot issues on equipment
- Supervise plumbing staff

### **Is this the right role for you?**

- You possess a High school diploma or equivalent, and are a certified Journeyman 306A Plumber
- 5+ years of experience as a Plumber
- Strong ability to read and interpret blueprints
- Excellent problem solving, communication and organizational skills

EllisDon is proud to provide this unique career opportunity within a progressive environment with continuous learning and opportunity for growth, as well as a competitive compensation package.

### **Go ahead and be yourself. We'll pay you for it!**

We are an equal opportunity employer. While only qualified candidates will be contacted for an interview, be sure to continually check our website for other related positions as they are posted.

Accommodation for Applicants will be made during the recruitment process when requested.
