

## **IMMEDIATE: Sheet Metal Department Supervisor– Brantford**

We have an exceptional **NEW opening** for a **Sheet Metal Department Supervisor** at our Brantford facility.

**Why us?** How we do our business and treat one another is what makes our trades family great. **Find out – Apply today.**

- We are a premier, multi-trade contractor. We have been serving leading industrial, institutional, and commercial facilities across Southwestern Ontario for over 40 years
- We are proud of our positive, friendly workplace where we treat each other like friends and family
- We support growth through quality, ongoing training
- We provide a safe work environment

**Overview of Position:** As a member of the management team the **Sheet Metal Department Supervisor reports to the President** and is responsible for the overall profitability of the Sheet Metal Department.

### **Responsibilities:**

- Supervision of your sheet metal team's day to day activities including:
  - i. Preparation of sheet metal estimates
  - ii. Project management of sheet metal projects and multi trade projects involving majority sheet metal hours.
  - iii. Material and equipment purchasing and maintaining sheet metal inventories
  - iv. Shop, machinery and tool care and maintenance.
  - v. Departmental compliance with Company policies including health and safety.
- Manage customers' requests for tradespersons and quotations.
- Liaise with Local Union, manage staffing levels and schedule work.
- Prepare an annual departmental business plan and budget.

### **Qualifications:**

- Current Certificate of Qualification in the Sheet Metal Worker Journeyman Trade Code 308-A.
- Experience supervising sheet metal workers and sheet metal construction projects.
- Capable of estimating small installation projects.

Our brand has become the most trusted name in the business because of people just like you. **We look forward to meeting you.**
